

2nd Annual Georgia NASA STEM Day

January 28, 2012

9am – 4pm

NASA Regional Educator Resource
Center

Museum of Aviation
Warner Robins, Georgia

Join us for a day filled with hands-on sessions in STEM topics utilizing NASA educational resources and materials. Learn from expert educators how to engage your students and increase their enthusiasm for STEM disciplines using the adventure of space travel and involving them in authentic experiences. Sessions will be grade level specific and topics will include:

- Astronomy
- Earth Science
- Space Math
- Technology
- Engineering
- Language Arts
- Competitions
- Space Exploration

Participate in an interactive session with NASA's Digital Learning Network; Learn how to register for free professional development activities through NASA's ePDN; learn how your students can participate in exciting challenges and competitions. Join us for an exciting day.

Registration: \$15, lunch included
